TEW industries added to the ever Payrolls

Alabama enterprises during the first six months of 1929, are estimated to have increased industrial payrolls by a million and a half dollars annually.

This million and a half, made in Alabama, will be spent in Alabam, thus promoting the prosperity of many people.

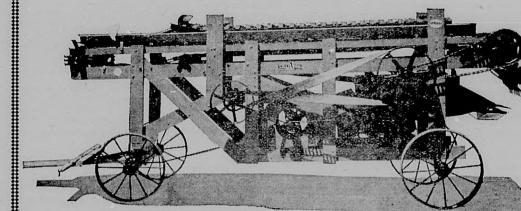

Many of our 1929 industries were brought to Alabama as the direct result of the efforts of our New Industries Division, working in co-operation with civic bodies and public spirited business leaders in Alabama cities.

Every civic body in the state and every loyal citizen in every town can help in the important task of speeding Alabama's industrial development.

Send in to our New Industries Division the facts about your community-the reasons why it is adapted to location of new enterprises. Remember that the prosperity of every Alabamian increases with the prosperity of the whole state.

Come In and See the New Self-Feeder Lilliston NOW ON DISPLAY

The New Lilliston Peanut Picker---an entirely different machine---offers the advantages that you have always wanted in peanut-picking machinery.

The very latest and foremost development is fully exhibited in a few of the following important fea-

> 1. Self-Feeder, eliminating the labor cost and insures a constant flow of peanuts with maximum capacities at all times.

2. Hay and vines are all discharged in one place. 3. All-Metal Picking Screen, an exclusive and very important feature.

4. More simple in design and construction, weighing 800 pounds less than former model. You are invited to attend the permanent display.
